**Symptomatic testing:**

**IU students, faculty, and staff**

**Student** develops symptoms consistent with COVID

1. Access IU Health Virtual Visits app.
2. Login with CAS credentials.
3. Choose "Coronavirus Screen."
4. Choose a provider from the IU Health Virtual Screening Clinic.
5. Wait for your visit (It may take 15-20 min. If longer, call back later.)

**After assessment**

You may be referred to testing at a local testing center.

If test positive

You’ll get a call from the IU Health Virtual Screening Clinic telling you the results.

Continue to isolate yourself. You will get called by our contact tracers in 24-48 hrs.

Contact tracers will walk you through:

- identifying your contacts
- isolation procedures
- Twistle enrollment (mandatory)

You will be instructed when you can come out of isolation (usually on day 11 after symptoms started) by a text message sent from the IU Health Virtual Screening Clinic.

If test negative

You’ll get a message in the virtual visits app telling you the results.

Since you likely have a different infection, you need to quarantine until you feel better.

You’ll get a call from the IU Health Virtual Screening Clinic telling you the results.

**Quarantine yourself until your test results return.**

- Separate yourself from others.
- Stay out of class until:
  - no fever for 24 hrs (without fever-reducing medications) AND
  - improvement in other symptoms

**You will be instructed when you can come out of isolation (usually on day 11 after symptoms started) by a text message sent from the IU Health Virtual Screening Clinic.**
